

ABOUT ME

I am a 22-years-old computer science graduate who has been a cybersecurity enthusiast since secondary school in 2016. Since then, my career goal has not shifted by bit, which is to pursue my career in both cybersecurity and network engineering. I have obtained IT and programming skills by both on-campus education and self-study for a few years, but I aim to obtain more skills through better professional experience and become an expert in the field.

SOFT SKILLS

- Analytical thinking
- Willing to obtain new knowledge
- Teamwork
- Problem solving
- English and Malay communications

MUHAMMAD DANIAL BIN ASMAWI

Internship @ Cisco Computer Networking

IT SKILLS AND CERTIFICATIONS

CERTIFICATIONS

Cisco Certified Network Associate (CCNA)

- Switching, Routing and Wireless
- Enterprise Networking

Cisco Certified Network Professional (CCNP) Enterprise

- Advanced Routing

TECHNICAL (COMP. SCIENCE) SKILLS

- Python scripting for networking
 - Linux handling and Shell scripting/automation
 - Network and server management
 - Cybersecurity Capture the Flag (CTF) lower-level player
 - Online International Community: TryHackMe, HackTheBox
 - University-level @ UiTM
-

EDUCATION

Universiti Teknologi MARA (UiTM)

(MARA University of Technology)

Faculty of Computer and Mathematical Science

- Diploma in Computer Science
 - 2018 - late 2020
- Bachelor of Computer Science (Hons.) Computer Networks
 - 2018 - mid 2023 (expected, currently enrolling)
 - Key Subjects
 - Cisco CCNA and CCNP networking practice
 - Basic Cybersecurity and Digital Forensic
 - Network Programming using Python
 - Network and Server Administration
 - Basics of Network Engineering and Design
 - Internship from March 2023 - June 2023
